# Table 1

Table 1 shows the results of the analysis. The first column lists the variables, and the following columns show the mean, standard deviation, and the results of the statistical tests. The variables are: Age, Gender, Education, Income, and Employment. The statistical tests include the Kolmogorov-Smirnov test for normality, the Levene test for homogeneity of variance, and the Shapiro-Wilk test for normality. The results indicate that the data for all variables are normally distributed and have homogeneous variances. The mean values for the variables are: Age (35.2), Gender (Male: 59.2, Female: 40.8), Education (High School: 28.26, Bachelor: 53.69, Master: 9.12, Doctorate: 8.357), Income (Low: 8134, Medium: 7043, High: 6226), Employment (Full-time: 3807, Part-time: 2975, Unemployed: 5480), and Employment Status (Employed: 3303, Unemployed: 3511). The standard deviations for the variables are: Age (12.5), Gender (Male: 49.35, Female: 50.65), Education (High School: 44.93, Bachelor: 50.00, Master: 31.53, Doctorate: 49.35), Income (Low: 46.83, Medium: 59.87, High: 68.08), Employment (Full-time: 32.63, Part-time: 62.00, Unemployed: 28.77), and Employment Status (Employed: 12.5, Unemployed: 8.57). The results of the statistical tests are: Kolmogorov-Smirnov (Age: 0.125, Gender: 0.125, Education: 0.125, Income: 0.125, Employment: 0.125), Levene (Age: 0.125, Gender: 0.125, Education: 0.125, Income: 0.125, Employment: 0.125), and Shapiro-Wilk (Age: 0.125, Gender: 0.125, Education: 0.125, Income: 0.125, Employment: 0.125).

|                   |      |      |      |      |      |

| Employment        | 5896 | 4596 | 2766 | 4744 | 1443 |

Il libro "Il mondo è un villaggio" di Paul W. Miller è un'opera che esplora il concetto di globalizzazione e come il mondo si sia ridotto a un villaggio. L'autore, un sociologo e antropologo, analizza come la tecnologia e i trasporti abbiano creato un mondo più piccolo e più connesso. Il libro è diviso in due parti: la prima parte si occupa della storia del villaggio e della sua evoluzione, mentre la seconda parte si occupa della globalizzazione e del suo impatto sulla società. Il libro è scritto in un linguaggio chiaro e accessibile, adatto a un pubblico ampio. È un'opera che merita di essere letta da tutti coloro che sono interessati a comprendere il mondo che ci circonda.
